Installation Specifications

Electrical Requirements

120V/60 Hz
20 Amps

A: Cabinet opening minimum 30"
B: Acceptable electrical outlet area

IMPORTANT: If your cabinets are over 37" high, you must install this range on a hard, heat resistant support that raises the surface of the range so that it is about even with the countertop.

Installing Your Range

*Side clearance above cooking surface to any objects, i.e., wall.

IMPORTANT: Consult with Installation Manual for detailed instructions before installing.
All ranges must be installed with the Anti-Tip device that is included.

Recommended Locations for Gas Piping and Electrical Outlets
